

BRICE MUNJI

Software Engineer / Full-Stack Developer

● Douala, Cameroon ● English & French

PROFESSIONAL SUMMARY

Software Engineer and Full-Stack Developer with hands-on experience building scalable web applications, modern user interfaces, and robust backend systems. Skilled in translating real-world needs into practical technology solutions across the full development lifecycle. Combines technical delivery with leadership, currently guiding operations and technical direction at CodingHQ while driving community impact through local tech initiatives.

EXPERIENCE

CodingHQ — *Chief Operating Officer (COO)* Douala, Cameroon

- Coordinate and support technical teams across multiple concurrent software projects, ensuring alignment between engineering execution and organizational goals
- Contribute to strategic planning, helping shape the direction of the organization's software initiatives and community programs
- Oversee the design and delivery of internal and client-facing software projects, providing technical guidance and quality oversight
- Organize and lead community tech programs aimed at expanding local access to software development skills and resources
- Serve as a bridge between technical teams and organizational leadership, supporting day-to-day operations and project prioritization

PROJECTS

University Management System

- Built dedicated portals for administrators, teachers, parents, and students within a single platform
- Implemented authentication and role-based access control to secure data across user types

- Delivered core academic and administrative management features for institutional use

Primary School Management System

- Developed student registration and records management functionality
- Built modules for marks entry, average calculation, ranking, attendance tracking, and report card generation
- Designed separate, role-specific login experiences for admin, teacher, and parent users

LUMA *— CodingHQ Project*

- AI-assisted mother-tongue learning platform focused on accessibility and local language education

Sureway *— CodingHQ Project*

- Delivery and logistics software concept emphasizing streamlined workflow and order management
